## SUFOG 24TH JUNE 2006

Editors Corner...

Well folks, SUFOG is starting to take off and go places. Steve Rider (Secretary) has taken the ghost side of the group to task and is working on a structured approach and one that other members will be able to benefit from. He is hoping to have this section up and running very soon and I hope he will update us with the final structure etc and please check the web site for updates.

At the SUFOG meeting on the 19th July, group member Roger Anderton has taken up the reigns as events officer for the group. This follows on from our excellent 24th June sky watch. Plans are being drawn up by Roger and members will be updated with the finished results hopefully in the next issue. Roger is planning sky watch's, BBQ's, Ghost hunting and hopefully a few more other social events that members can enjoy.

Finally, there is one other announcement to make in that one of our members is starting up a web site on the internet for those members that wish to talk to other experiences. Jamie has experienced things throughout his life and they are still on-going. We have run an investigation in his experiences and even recorded some extra-ordinary events on video. Jamie has for one reason or another come to a point where he wants other to be able to speak openly to others about their experiences. Jamie wants this to be a secure area and not just anybody will be able to join in the discussion groups. Once Jamie has updated me further with this project, then I will of course update the members.

We are going forward at something of a trot at the moment and it feels good that other members want to do their bit for the group and also have their own ideas.

The final thing is that the group has its own Mobile number. **BUT, please do not phone it** but text the number instead. Your text will be dealt with as soon as. If you have a question about the next meeting, events etc, then text the following number :

**07875348729**

SUFOG BBQ and Ghost/Sky watch  
Victoria Country Park, Netley,  
Southampton.

24/06/06. Report by S.Rider (SUFOG  
Secretary)....

I arrived at the evening's event a little later than some due to having to come straight from working a twelve hour shift at Esso's oil refinery on Southampton water.

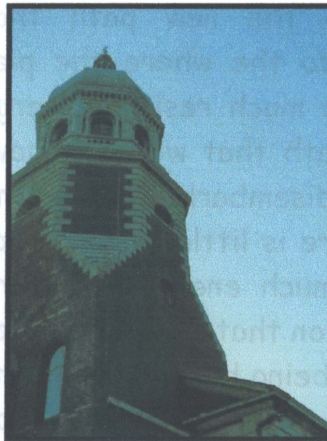

However, I was very much looking forward to the night to come as it was the perfect setting to launch SUFOG's new paranormal section, SUFOG-PI.

It was a great turn out for the BBQ and my anticipation for the night was high. I have to say that all the thanks for this has to go to group member Roger Anderton who arranged the whole BBQ event and also did much of the cooking.

So, after something to eat, myself and Steve G. decided to go for a wander. We walked toward the graveyard, which is where the first strange event took place! I stopped on the walkway, once a railway line, to take a photo toward the entrance to the graveyard. I took my photo and Steve also took a photo. However, Steve's photo was blank? He proceeded to take four more shots, which only the final shot showing an image?

We then proceeded on to the graveyard. Walking round this site is a sobering experience as so many brave soldiers from different countries are buried within its boundaries. It is also sad to see the vandalism done to some of those grave's by those who have no respect for those who have given their lives for their countries. There are also many stories regarding the graveyard, many which talk

of strange clouds or mists that have reportedly been seen over the graveyard. However, we experienced nothing during our walk.

Steve and I then proceeded to walk back toward the park and on to the towering form of the chapel, the only remaining structure of Hospital that once dominated the Netley shore front.

I approached the chapel with an open mind and wondering what sort of a night that was in store for us. However, on nearing the building I experienced a sense of anticipation and a feeling that there was a lot of energy around. I wondered if it had anything to do with the repair work that is taking place on the building's stonework due to its age.

Steve and I then returned to the main group and it was decided that the whole group would take a ghost walk, to be hosted by yours truly, around the chapel and the graveyard.

However, before we all went Steve G. managed to get some orbs on camera. So I decided to try but, my photos came out

dark, even though a flash was used? I then used my 35 mm camera to take a couple of shots. So, I await the outcome of these photos. Could these orbs have been dust kicked up by us from the dirt on the BBQ site? Maybe, Maybe not!

So, we all walked off with our cameras and a couple of us with more extravagant gadgets. On reaching the chapel I was almost at once enveloped by the charged atmosphere as I stepped on to the new path that connects the chapel to the where the pier once was. There is so much residual energy here as this is the path that wounded have been brought up on disembarking from the hospital ships. So there is little wonder that there should be so much energy still here with the intense emotion that must have been experienced by those being brought up to the hospital, especially as, for some, it would be there final trip!

One of our group has an interest in electronics and has built his own detecting equipment, which was highly tuned. His equipment showed some wild fluctuations on the path, although my own EMF meter only displayed a fluctuation between 0.01 and 0.02.

It was at this time, when I was thinking I had better get everyone together to talk about the site and previous experiences that someone expressed a desire to return to the cars as it was close to 11 pm and we had to leave by that time. So, reluctantly we had to leave and progress to our Westwood site for some sky watching.

I was not to leave the park without one more experience. I was stood at my car packing away and getting ready to leave, when I had this feeling that I should look behind me? The area behind our BBQ site is used for Caravan events and is also the site of the old

huttet hospital that was built to house overflow patients from the main hospital. I stood at the gate and shone my torch around and then opposite me I saw a small orange light that was there only for a split second! I shone my torch over the area of the grass and trees, but nothing moved and there was nothing there? Could it have been a spirit light, similar to those I have witnessed before on investigations at other sites? I do not know but, I expect the sceptics may say it was just an animals eye reflecting the torch light? I have seen this on many occasions and, although I will not dispute it, I do find it unlikely!

So, it was decided that six car loads were off to the sky watch, about eleven people, who would all follow me to the site! Which is the largest turnout we have had at this site. I was a beautiful night and still warm enough for t-shirt as I stood on the hill.

Over the course of the next couple of hours we watch and saw the usual assortment of shooting stars and satellites. However, there were two sightings that have yet to be explained?

00:25 - 00:30

I spotted a fast moving flashing white light, displaying the same brilliance as a bright star. I brought peoples attention to it and grabbed my Binoculars. The view of the object through the binoculars was of a last moving flashing light, which was flashing with no regularity, which displayed a kind of halo around it as it was flashing. The object faded from

## Southampton UFO Group Newsletter Subscription

### Details :

The newsletter consists of no less than 12 double-sided  
A4 pages..

UK Single Membership : £10.00

UK Joint Membership : £15.00

UK Family Membership (4) : £25.00

PER YEAR INCLUDING POSTAGE

\*\*\* BY-MONTHLY \*\*\*\*

view briefly during its flight (approximately S - N)  
then reappeared then it faded a second time just  
as it passed overhead, it did not reappear.

00:35 - 0039

Again I brought everyone's attention to a very  
bright light moving W - E. This object was quick  
moving and did not change in its flight path. It was  
thought it was possible it could be the ISS  
(International Space Station). This will be looked  
in to.

The whole night was a huge success and it is  
hoped that more SUFOG sky watches will be  
announced in the future and that they will be as  
good a success as this night was.

I also ask you all to watch this space for  
more information on SUFOG's new paranormal  
investigations section SUFOG-PI (Southampton  
UFO Group Paranormal Investigations).

Post Script...

Group member Mrs Smith from Totton, couldn't  
make the BBQ & sky watch so she did one on her

own in her back garden. She wrote to me on the 25.6.06...

Would love to have joined the sky watch last night but couldn't find anyone to join me. So, sat down the bottom of my garden looking up at the sky. What a super evening.

11.10 p.m. Western Sky.. 24.6.06...

Like a white light being switched on in the sky and then switched off... and nothing.

A lot of aircraft about, both high and low in the sky but there was no sign of the light being an aircraft.

Wonder if anyone saw from your angle...

(Unfortunately, we did not set up camp until around 11.20 - 11.30 p.m. and missed this and are unable to corroborate the sighting. Still, I have logged it along with the other sightings we saw on our sky watch and will look into it as soon as possible... Steve G)... Then there is this...

### The sightings on the 24th Continue...

#### UFO SIGHTING REPORT...

#### Southampton, Hampshire, England

#### June 24th 2006...

UFOINFO Sighting Form Report...

**Location:** Southampton, Hampshire.

**Date:** 06/24/06 between 1600-1900 hrs GMT.

**Approach Direction:** From easterly direction.

**Departure Direction:** east.

**Witness Direction:** east.

**Description:** From great spot on high balcony saw initially 6 round objects falling. When on horizon level up to 10 objects counted. These

then moved with varying degrees of clarity along the horizon. some moved closer to each other, and were in groups of two and three. One moved from main group and appeared by airplane trail then moved, at speed back to the main lights. lost track of them at 1800 hrs but appeared further south until 1900 hrs.

**Colour/Shape:** To naked eye looked like various sized golden globes. Through binoculars they looked mushroom/jellyfish shaped.

**Height & Speed:** Above horizon, fairly slow moving to dif positions in sky.

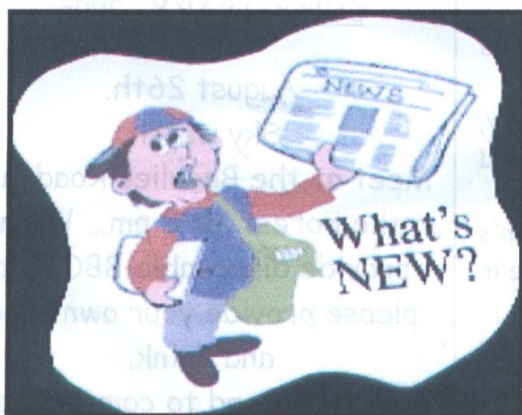

**TV/Radio/Press:** No details in press, TV or web.

**Source** [www.ufoinfo.com/sightings](http://www.ufoinfo.com/sightings)

I live in Fleet Hampshire, last night around 18.45 saw a large silver object travel from North to South above one aircraft on departure from LHR and below another aircraft in cruise. This object or craft which we believed to be an aircraft was very large and luminescent. Having called my daughter who also works in aviation we concluded we had never seen anything like this before.

We followed this craft? through binoculars it made a very abrupt 90 deg turn to the west and disappeared at speed. This was not an aircraft or a helicopter due to the absence of wings and the speed which it crossed the sky line and it had no position lights or beacons illuminated. Be interested if anyone else saw this happening.

## **UK UFO Reports...**

### **The Wilmslow Express... 12th July 2006** **Fresh Investigation Into Wilmslow UFO**

A fresh investigation has begun into the sighting of an unidentified flying object over Wilmslow 30 years ago.

Researchers are going through files from 1966 when the "craft" was spotted by a policeman behind Hoopers on Alderley Road.

The close encounter was by PC Colin Perks who saw the image with his own eyes while on duty in the town centre.

In his report afterwards he says he was checking the back door of a shop at 4.10 am on January 7.

At the time he heard a "high pitched whine" and when he turned to look over the car park behind he saw "a solid looking object, stationary, some 35 feet above the grass of the meadow beyond the car park and about 100 yards from where he stood. "The upper surfaces glowed steadily with a greenish grey colour, a glow that did not hide the definite shape of the object."

The policeman compared the image size with that of a bus estimating the UFO had a diameter of 30 feet for the base.

He said after about five seconds it moved off in an east, south east direction with no change of sound and then disappeared.

Nowhere could he see openings like portholes, he added.

A full report was published in the Flying Saucer Review which is the leading and longest established international journal dealing with UFOs and similar encounters and a published case study tells of a "strikingly similar" sighting a year later in Streatham.

Now files are being updated and researchers want to interview PC Colin Perks for verbal evidence and to contact anyone who might have experienced mysterious goings on during the same night.

Derrick Wood, 74, of Sale, a retired safety consultant, who says he has a keen interest in UFOs said another witness had come forward since the sighting.

"There is to be a website set up so that people can give evidence about this and other sightings which have been recorded in the past.

"Someone has been to see the policeman in the case of the sighting in Wilmslow in 1966 and an investigation is going on to find out if there are other witnesses."

He is hoping memories will be jogged and wants any flashbacks to be recorded in full detail. There are no records of the sighting at the Wilmslow Express archive.

### **The Luton News - 17 July 2006...** **A Ballooning In Sightings Of UFOs**

Our story sparks more recollections from readers

After the Luton News reported the 50-year-old mystery of a UFO sighting over Ramridge Junior School it became clear that the town was not alien to the unusual.

Among the many people who made contact with the paper after our front page report were other Lutonians whose lives have never been quite the same since they saw something strange in the sky.

Steve Clark was three years below Bill Dillon at Ramridge Junior School in 1957 when they both witnessed a mysterious flying object in the Luton sky.

Even though they grew up living in the same street, it wasn't until 1982 that the men first met and compared stories, and it wasn't until Bill's version of events featured in the Luton News three weeks ago that Steve decided it was time to make his own story known to a wider public.

"There was something there that startled everybody that day," said Steve, 57.

"We were in the playing field of the school.

I never saw it arrive or leave, but what I do remember quite clearly was a woman teacher on my right and four or five other kids to my left, and I think we were playing rounders, and everybody just

stopped.

"The teacher looked at us and she had a "what the hell's that" look on her face. She was a bit alarmed."

Steve said he could see a round object in the clear blue sky, appearing no bigger than a marble at arm's length to his naked eye, hovering in the distance.

The youngster's sighting was much shorter than Bill Dillon's and he said he never had a chance to see the UFO manoeuvre in any significant way.

And when the retired Lutonian first spoke to Bill in the 1980s about their experiences the older witness said he thought they were talking about two different events.

The main disagreement seemed to be over the shape of the inexplicable sight.

Bill said it was saucer-shaped and Steve described it as round, but UFO researcher John Hanson many years later told them it was much more likely they were both witnesses to the same phenomenon, whether alien, man-made or natural, despite their differing recollections.

One explanation offered at the time, and often used in UFO sightings, was that the Ramridge pupils and teachers all saw a weather balloon.

But Steve said he extensively researched weather balloons as an adult and none of them resembled what he saw.

He also explored the possibility that it was another man-made flying object, such as an airship.

"There had been a lot of airship activity in the town from 1919 until the industry packed up in 1990," he said.

"It could have been an airship coming down nose towards us or it could have been the underside of Bill Dillon's saucer-shaped object, but it's so long ago now no one is ever going to know.

"That day is something that's been in my memory all my life, the same as Bill Dillon, but I remain open-minded about what it was really

"Was it a UFO, was it a balloon?

"We're never going to know."

#### Selby Today - Yorkshire...

6<sup>th</sup> July 2006...

#### 'UFO' Sighting Caught On Video...

Yet another UFO sighting has been captured on camera in the skies above Selby district.

As revealed in the Selby Times earlier this year, mysterious alien aircraft reports prompted a Selby UFO-spotter to appeal for help analysing the images.

Abbots Road resident Tony Topping has charted a huge rise in X-Files activity in recent years.

It was when the 35-year-old was looking back through camera footage of unexplained lights in the sky over his home

This is because Sky Watch's are likely to be cancelled / changed due to weather conditions, and other commitments that the editor is not aware of at the time of publication of the newsletter..

in 1999, he noticed similarities in light patterns to a well documented sighting in Belgium.

Tony is now appealing for image analysis experts to come forward to help him with his discovery, while also looking to establish a local paranormal research group.

In the meantime, another strange light in the sky was spotted by Tony on June 23, fuelling claims Selby is something of a UFO hotspot.

He said: "At about 10.15 pm, I was cycling down the canal and stopped to take a rest. I was on the stretch of track from the Burn canal bridge, towards the small hump-back bridge at Brayton.

"Oddly enough, the night before while cycling on the canal a very bright ball of light shot through the clouds at low height over an area being developed between the chemical factory and the rail bridge over the canal. I was a bit miffed having missed it off camera. However, on June 23 the object silently came through the clouds at a few hundred feet and moved from right to left glowing brightly. Luckily, I managed to film it.

"I plan in the months ahead to give a presentation evening in the town. If any older readers can help with rumours of sightings in the 1950's onwards, I would be grateful. As ever, e-mail me at tonyopsufo@hotmail.com with reports."

The Selby Times revealed last year how the area recorded an unprecedented 33 cases of X-Files phenomena in 2004 to shoot the district to third spot in the British UFO Hunters activity top ten.

Selby resident Jody Holden also featured in the paper earlier this year after taking a photo of an image showing what she believed to be an alien spacecraft looking down on Brayton Barff.

#### The Banbury Guardian - Oxfordshire...

29<sup>th</sup> June 2006...

#### UFO Caught On Camera...

A pleasant evening barbecue turned into a sci-fi drama when a teenager spotted a UFO and captured it on film.

For 19-year-old Jamie Crawford it was a dream come true when he was able to reach for his camcorder and record his sighting.

An expert has confirmed the images are genuine.

"I've always wanted to see a UFO and to catch one on tape is a real bonus," said Mr Crawford of Marjoram Walk, Banbury. "I was very excited and shaking like mad while I filmed.

"We were just serving food in our back garden and I saw something peculiar out the corner of my eye. I got the camcorder and as soon as I zoomed in I thought 'I've

caught a UFO'."

Mr Crawford said to the naked eye the object was about the size of a thumb nail and glinted in the sun. It was visible for about seven minutes and seemed to float slowly upwards at an angle before disappearing.

From his Hanwell Fields home the object was southeast, the same direction of the now disused RAF Upper Heyford airbase. The incident took place at about 7 pm on Thursday June 8.

Mr Crawford said: "One of my friends was a bit sarcastic at first when I pointed it out in the sky, but then he admitted it was a bit weird.

"I've always believed in aliens and this has confirmed my theories. I'm not sure what they'd be doing here, maybe monitoring how we live, but I'm going to keep checking the skies."

Mr Crawford's video footage was converted to stills by a technician at Oxford and Cherwell Valley College's Banbury campus media department.

Kevin Robinson, programme manager for media and performing arts, witnessed the transfer and said the images on the camera looked genuine and reflected real structure, not digital distortion or ghosting.

Suggestions in the editing suite included a Harrier jump-jet, Chinook helicopter and squashed fly, though Mr Robinson's personal preference was a Stealth bomber.

"At that distance and zoom if it was heading towards the camera before banking and heading away it might give the false impression that it was hardly moving," he said.

"It seems an awful long way for aliens to come just to watch someone's barbeque, but whatever it was it was definitely there."

#### The Sunderland Echo...

05 August 2006...

Ministry To Investigate UFO Light Sightings...

The Ministry of Defence (MoD) is to probe UFO sightings over Sunderland and

Seaham after mysterious lights appeared in the night sky.

Since the Echo reported the mysterious activity earlier this week we have been contacted by more than 20 readers who witnessed the lights.

They all reported seeing bright, orange-coloured orbs floating over East Durham residents and parts of Sunderland.

Now, after being contacted by someone who saw nine UFOs in the sky, the MoD is to investigate.

An MoD spokeswoman said: "We examine any UFO sighting reports to establish whether there is any evidence to suggest that UK airspace has been compromised by hostile or unauthorised air activity."

The probe is under way after Seaham couple Harry and Elizabeth McCall filmed the orbs flying over the town last Saturday night.

Mr McCall, 67, told the Echo: "They were silent, as if they were floating. There was no noise.

"It was unbelievable and until someone convinces me otherwise, they were UFOs."

Since then Echo readers from Westlea, Eastlea, Northlea, Deneside, Dalton-le-Dale, and Hollycarrside, in Sunderland, have reported seeing the lights.

UFO Hunters, a national organisation which researches and compiles information about sightings internationally, has also appealed for witnesses to get in touch.

Its leader, Russ Kellett, wants any UFO spotters to file reports on its website, [www.ufo-paranormal.co.uk](http://www.ufo-paranormal.co.uk), or call him on 01723 514700 so he can start his own investigation.

North East-based UFO expert Alfred Dodds receives an average of three reports a year of sightings in the region.

Mr Dodds, 68, who runs the Northumberland UFO Research Centre, has been interested in the

subject since the age of 10 and has never heard of any local sightings like those made last weekend.

He said: "There have been similar sightings, but mainly abroad.

"The problem is you see is that we don't know what is being developed in technology and who is developing it.

"It's mainly America, which we have seen recently in the press.

"There are a lot of triangle sightings, with three lights and then a larger central light. This doesn't sound like that at all.

"There is usually an explanation for most things, but there is about five per cent that are unexplained."

Reports to the MOD can be sent to the Directorate of Air Staff - Freedom of Information, 5th Floor, Zone H, Main Building, Whitehall, London, SW1A 2HB.

A 24-hour answer phone, where people can leave a name and contact details, can also be reached at 020 7218 2140 or people can email [das-ufo-office@mod.uk](mailto:das-ufo-office@mod.uk).

#### The Wandsworth Putney Guardian...

10th August 2006...

#### Did Aliens Visit Balham And Tooting?

There were some strange and spooky goings on in the skies last week, prompting one observer to eerily predict "I think there is something out there."

Stunned witnesses described how gob smacked crowds were drawn out onto the streets to watch two sets of unidentified shining bright orange lights fly perfectly in formation through the skies above Balham and Tooting.

The UFOs, which lit up the skies for a short while before shooting up and disappearing into the distance just before midnight last Friday, also had people standing in their gardens trying to capture the action on video and mobile phones.

And the unexplained phenomenon that left Balham and Tooting's Mulders and Scullys stumped also had the Ministry Of Defence (MOD) scratching their heads.

Baffled Newham College Site manager Peter Dacey, 48, saw the lights when he was going to visit a friends house in Balham.

He said he saw four lights coming towards him at a steady speed before they went up into the sky and disappeared. Another four followed after that.

He said: "They were making no noise at all even though they were not far off. There was an aeroplane further off that we could hear. There was no way they were fireworks. If they were a helicopter or a plane we would have heard something. I just can't work it out. It was unbelievable."

Peter's equally baffled girlfriend Noriko Shimada, 46, a fashion designer from Balham, who was with him at the time said: "There was no sound and it was just the lights so I thought it was very weird. I have no idea what it could be."

Antonio Petrosino, manager of Double Espresso, Balham High Road, also saw the lights after leaving work and was joined by staff from another restaurant staring into the skies in amazement. He said: "Who knows what they were. It could be anything. You could name it as a UFO but you just can't say. I believe there is something out there. Definitely."

An MOD spokeswoman said: "We are not aware of what these lights could be."

Sightings of UFOs and extra-terrestrial activity in the skies are not alien to Wandsworth and south west London.

In March earlier this year The Wandsworth Borough News reported how two work pals spotted an unidentified flying silver triangle in Putney while they sat at their office desks.

While in February another reader contacted the paper after seeing "strange lights" in the sky.

And according to information released by the MOD under the Freedom of Information act earlier this year, reported UFO sightings have been recorded three times in Wimbledon in 2002 and twice more in Southfields.

### The Shropshire Star...

9th August...

### Light Shed On Hill Mystery...

The mystery behind two white lights on Shropshire's favourite hill, which puzzled people for miles around, was finally solved today.

Wrekin-watchers have been baffled about the source of the lights for more than a week. Some suggested it might be a UFO, while others claimed it might be cars driving to the top of the 1,335 ft hill. But the Shropshire Star can today reveal that the lights are part of new security measures to stop vandals attacking the TV mast and communications equipment on the hill.

### SUFOG Events...

### Roger Anderton (Events Officer)

### Keep up-to-date...

With Roger taking up his role, please can I ask on his behalf...

1. If you want to be kept up-to-date with planned events, please send him your email address : [R.J.Anderton@btinternet.com](mailto:R.J.Anderton@btinternet.com)
2. Please send Roger any suggestions as to sky watch sites or anything you feel that Roger may consider arranging.

If you are interested in the following events, please email Roger with your desired date so that he knows what date to book and it will also give him numbers.

### August 26th.

Sky watch.

Meet at the Beaulieu Road Pub in the Forest at 8 pm... We will provide disposable BBQ's so please provide your own food and drink.

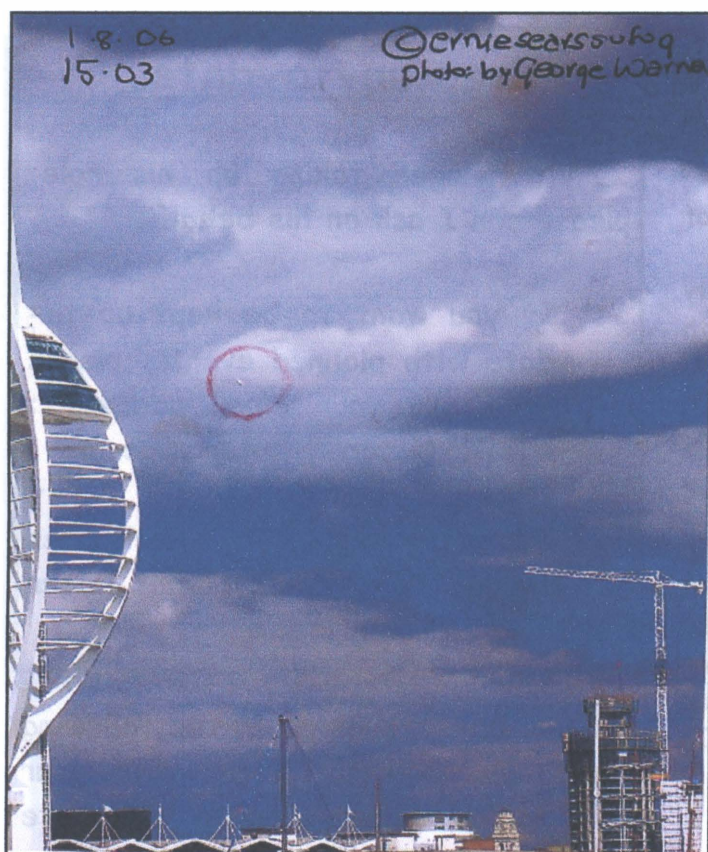

### Ghost Walk...

Halloween Maritime Guided walk watery tales from the deep Holy Rood Church, High Street, Southampton.

Oct 31st and November 1st, 7 p.m. and 9 p.m.. Tickets £4.00. Tel 02380 715105.

MAGAZINE REVIEWS  
BY ERNIE SEARS.

**UFO DATA** opens the list of magazines this issue, a rapidly improving pocket sized and colourful issue for July/August. The cover feature of a craft near Big Ben etc by film maker and UFO experiercer Chris Martin. famous for his films of anticipated craft in the 1990's. A 16 minute compilation is available for free in this issue of UFO DATA on DVD. Interesting to watch at SUFOG'S recent group meeting, especially in comparison to Heathrow aircraft seen in the vicinity. Among the list of contents in the mag. a 47 pages are Nick Pope's views on the recently released MOD "The Condign Report". Not surprising to note the MOD wanted six thousand quid lets for the privilege of reading the usual deleted bits and the explanations of nearly all unidentified flying objects were UAPs....unidentified aerial phenomenon's. Or even plasmas! Other interesting articles in the magazine Include Steve Johnson taking a look at various shapes we call UFO's

Hope our George's contributions add to the interest and the enigma next issue! Post war Britain's "An Airman's Encounter fascinates. Multi-witness sighting over Liverpool. Much more in 48 informative and interesting pages Must be one of the biggest mag's going in the UK. Profusely illustrated and in full colour. Contact UFO DATA PO Box 280. Leeds LS26 1AN. Tel; 07957 223358 office hours. £3.50 per issue of by subscription. Editor Russel Callaghan. Features Editor Phillip Mantle.

**UFO monthly.com** issue number 27 features a gripping eight pager Headed "E.T SPACESHIPS; INTERSTELLAR ROUTES TO EARTH," author astronomer Eamonn Ansbro, and ties in sufficiently with the enigma of our George's photos to change my own decision to cease looking for and at lights in the sky and go along with the Portsmouth harbour "craft" and "humanoids". Bringing in the talents of another luminary, Roy Dutton, too, also way over my old head, with orbital tracks around Earth, routes to and from very highly advanced civilisations. My own experiences over many years...forty or more.. can still allow for "aliens" I've met.....they play a huge part in the ongoing mystery. The latest collection of UFO sightings from around the UK. UFO related stories from cyberspace off the web. Review of the "Conspiracy of Ireland" UFOS by Carl Nally and Dermot Butler. Latest UFO sightings from around the world since last month. The extraordinary images from our intrepid cameraman 'George' captured above the skies of Portsmouth Well worth subscribing to... regular email, telephone 07791 525355, postal address UFOMonthly.com. 8 Ashdene Drive, Crofton. Wakefield, WF141PQ more info on [www.ufomonthlymagazine.co.uk](http://www.ufomonthlymagazine.co.uk) The magazine of NOW and THE FUTURE. Its statement 'The Truth is Already Here' Editor Gary Heseltine.

**OVNI** always a treat to see...bi-monthly and £2+ pp UK. Journal of the Phenomenon Research Association..."At The Cutting Edge" Its members free issues. Sad to read Leonard Cramp passed away recently...Isle of Wight based author, investigator

etc. Leonard wrote the Space, Gravity, and the Flying Saucer in 1954, from his scientific viewpoint based on his UFO investigations. He was 86. We never met but did correspond and I stood in for him at short notice on Portsmouth's Radio Victory when he was unable to make it, in the fifties. He published the "George Adamski" type flying saucer landing up in the Lake Coniston area report by two boys who photographed it BEFORE Adamski's book came out! OVNI also features a two tier "saucer" filmed over North Yorkshire at Brayton Barff 30<sup>th</sup> May 06... just one of a number witness "Jode" filmed over the past three years. Neil Carns has been seeing and filming mysterious globes of light near his Nottingham area over recent months. They slowly separate. More sightings and photos from Great Yarmouth on the 10th of June 06, by holidaying Paul Usher, a PRA member, at 3.30 pm. First thought 'a bunch of balloons', but closer look said collection of ball-like objects in the blue sky. Coincidentally !) New York city witness took five photos of similar objects over Central Park in June 05. Spheres 'rotating' and 'joined' in 'controlled movements. Resemble our George's recent photos. American incident by George(!) Natowhowcon, from Filers Files. 'Many sightings' of Flying triangles coming from Canada and USA, 2002,2003, and 2005,OFTEN in the proximity of nuclear power reactors, power stations and research facilities. New Zealand and Australian reports in 2005 and 2006, feature "odd clouds". Three witnesses described 'sharp outlined "clouds", observed approaching each other "to nose to nose". thence moving off slowly. No

sound of aircraft. ODD that I now have a digital photo of an ENORMOUS sharply defined cigar shaped cloud over Southampton only yesterday morning.. 2<sup>nd</sup> July 06, just as I signed a letter to Gary Heseltine. Yeah...a "cloud", MUST have been, but others around it were broken up in the early morning sky. I photographed it through part opened window. ZOOM lens showed impressive shape etc...very smooth and grey! OVNI also contains article of Flying Triangles over Derby nuclear connections, mid 1990s. Mag obtainable as usual from 94 The Circle, Sinfen, Derby, DE24 9HR, members of Omar's Phenomenon Research Association free, others £2 +pp, bi monthly.

UPRI NEWSLETTER issue Two 2006 for June? The publication is, now-a-days, largely composed of newspaper articles, but covers the current "Conspiracy of Silence" book out NOW, authors Dermot Butler and Carl Nally. UPRI NEWSLETTER features the "plasma" debacle, 'Robbie E.T will save us', 'play back your own dreams on TV', 'Hunt for E.T narrowed to 10 Stars', 'Curse of the Iceman', 'Slingshot to Moon', 'Strange horror the voice from the Grave'(!) 'Spirits spooking patriot Prison', 'Near death Experience may be Imagined', 'Heatwave scares off the Ailens', '0.3 model in jar could be linked with Roswell(!)' etc etc. (AND I've left out loads more! Contact UPRI at PO Box 7041, Harmonstown, Dublin 5, Ireland, or 0872144 009, or email<upri@oceanfree.net>

MAGONIA comes in a bright yellow cover format for its June issue.. sub-titled 'Contemporary vision and Belief' Editorial Notes deal with that "CONDIGN" MOD "release", continued on Page 11. Summed up Editor John Rimmer... Excerpts include 'a

flawed document', 'falls into trap of one-size-fits-all explanation.', 'still an important document' commissioned in 1996, and BOY!, HAVE WE MOVED ON SINCE THEN! Add no evidence that this is an extraterrestrial phenomenon' (how about an ultra-terrestrial ditto?) 9 by well-known Joe McGonagle on British UFO Pioneer Julian Hennessy. Altho' I am dreadfully ignorant of Julian's British UFO role it becomes obvious that he played a very prominent and important part in World ufology...and like me and many others, was drawn into the enigma by sighting Sputnik 2 passing over the UK in 1958. (My event was preceded by a few minutes earlier blazing red huge disc falling out of the clear blue sky and plunging, seemingly, into the waters of the Solent...all in silence!

Thinking it was Sputnik 2...with that poor dog aboard,.. I rushed along the road (I lived in FAREHAM, Hampshire then.) to the phone box and dialled Thorney Island airbase, where they assured me twasn't Sputnik or a plane crashing!

Years later...more so NOW, in connection with George Warner's massive collection of Portsmouth Harbour photos. I'm more convinced about other dimensions, parallel worlds, etc. Kevin McClure writes in MAGONIA ON 'unravelling the Spear of Destiny Hoax', long running saga that involved Hitler, The Occult, Goering, the Jews et al, and the coming apocalyptic events beginning in 1982 and up to the 2001 waves of destruction. Oddly.. or maybe not....and apart from any similarities to what we see now., I was more intrigued by the author's name who wrote the Spear of Destiny book (the title has to do with the alleged Occult Spear that pierced the side of Jesus Christ.) The author was Trevor Ravenscroft. I believe we have, a care home for the mentally ill at

Droxford, in our Hampshire's Meon Valley, called Ravenscroft. Hmmm! And they call US nutcases! WHO INITIALLY CHOSE THE NAME, AND WHY? I close my review of MAGONIA with the book titles reviewed therein; Philip Hoare's England's lost Eden...a Victorian Utopia. When prophecy Never Fails, myth and reality in a flying saucer group, by Diana G. Tumminia. The Call of the Weird, "freak shows", by Louis Theroux. Mystery Big Cats, by Merrity Harpur. Nick Redfern, On the Trail of the Saucer Spies (low level surveillance by authorities "in case" we were searching the skies for some things we spotted were best kept secret! WE STILL ARE! THEY STILL ARE! Last but by no means least, Richard Freeman searches for dragons in More than A Myth. (Whoops!) FOUR MORE tucked away on the last two yellow pages! Quick! SUFOG deadline approaches! Nick Harding on Secret Societies, GRAHAM Hancock still at it on Supernatural meetings with the Ancient Teachers of Mankind. George Knapp and Colm A. Kelleher on Hunt for the Skinwalker.. a family takes over a Utah USA which is haunted by a motley of giant invulnerable wolves, invisible aliens, UFO'S, orbs, (like our Portsmouth Harbour?) poltergeists, dogs fried by rays, the odd bigfoot, etc. Science versus the paranormal? DEFINITELY LAST; The Occult Tradition from Renaissance to the Present Day, by David S. Katz. All other details... space precludes!.. from John Rimmer, 5 James Terrace, Mortlake Churchyard, London, SW14 8HB.

NEWSPAPER REVIEWS  
BY ERNIE SEARS.

Well, only TWO that I can lay my hands on... Both on crop formations. BOTH Daily Mail items : July and the stunning "3-D" formation in Oxfordshire at Ashbury, discovered by a micro light pilot, 350 ft across. Significant since Steve Alexander, well known circle researcher, describes it as the first inter-dimensional sample, which, AGAIN, spurs me to investigate the "humanoid" and solid aspect of some of the latest George Warner photo's. There are clues starting us in the face, eh?

The second DAIL MAIL crop formation... outside the village of Avebury inspired a double page article by Robert Hardman on July 29th... although try as I might it spent so much space on the usual "hoaxers versus aliens versus farmers making money or not", that the actual date escapes me. Not important. Mail reporter Hardman spent helicopter time investigating the surrounding areas for the very few other formations; 'have the aliens deserted us' (who'd blame 'em). "Professional vandal" crop hoaxer Rob Irving was unusually frank although knew the laws of trespass and Damage. Odd? He said the rather uninspiring formation was about 12 feet across... the photo used showed visitors in it who have disputed that... looks more like 60 feet across and four such in all.

OK... the dearth of newspaper items can well be explained by the one hundred per cent total SILENCE FROM ALL newspapers, Television, et al, that followed DIRECTLY

after I'd again sent big packs of photos etc to ALL the ones that had previously accepted, acknowledged, or even published. The DIFFERENCE being that among and heading the dispatched photos was the one with the "humanoid" on. Steve, our editor and leader, and other interested parties, discussed the effect that particular photo would have on the media. We were sadly, rightly or wrongly, we forecast that swift result, from... well, you all know the answer. In fact, those two crop formations featured got the same treatment immediately. I'm also awaiting the reaction for the SECOND photos I sent to the Commodore of the Royal Portsmouth Dockyard of a rather special event in November 2005... the first had been MOVED almost as soon as he got the photos and another one appointed. Coincidence? Hmmm.

OK... I'll finish with a rather humorous item that is linked with the above. A thick envelope filled with photos and two incidents in my past involvement with actual UFO's went to the MOD department involved with that "Condign" TOME. The same material was sent to Dr. David Clarke at Hallam University, Sheffield, since he requested the publication of the MOD report... and since we class him as a professional skeptic... I crossed swords with him in the old UFO MAGAZINE... I thought he deserved to see THE TRUTH about his "all in the mind" and such "explanations". The thick envelope came back, ripped open inside another envelope with a crayoned 'Not known at this address'! My picture of the good gazing at the PILE of George's photos

and reading my backup evidence, going red in the face, and stuffing the lot in the envelope, seizing a thick crayon handy on hi desk and getting an underling to post it... well, obvious, "innit?" I have since had confirmation of Dr. Clarke's residence at Hallam University still.

(Also, I can back the last as I have the following press cuttings - The Guardian 24th June 2006 and The Scotsman 26th June 2006 and interviews state 'Dr. Clarke of Hallam University', Sheffield'. So much for the so called skeptic who hasn't the 'Ball's' to put pen to paper and try and undermine our intelligence. Is he lying or does an underling not know he is employed at the University? and who appears to be lying about where he is employed)... I have emailed the university and THEY have confirmed that Dr. Clarke is still a lecturer at the University... Kind of shot himself in the foot really!!!! Steve G editor.

### World News & UFO Reports...

The New Zealand Herald...

Friday August 4, 2006.

UFO Sightings' Reported In Manawatu.

Mystery surrounds a number of strange sightings in the Manawatu skies last night.

Several people have contacted Newstalk ZB claiming to have spotted a UFO after seeing lights darting around at speed.

One informant from Feilding said he saw lights doing strange manoeuvres which seemed to violate the law of physics.

Police have been at a loss to explain what the lights may have been.

The Wellington Observatory said a possible explanation could be a bright star low on the horizon but that did not account for the strange movements the lights were making.

The Gulf Daily News - Bahrain...

11th August 2006...

UFO Spotted Over The Tree Of Life\*

A report of a green and white revolving light over the Tree of Life yesterday became the latest claimed sighting of a UFO in Bahrain.

Pakistani Mohammed Adnan, aged 40, claimed he and six others saw it in the skies over Sakhir three weeks ago.

"We were all fascinated at the sight and were convinced it was most unusual," said Mr Adnan, who is in Bahrain visiting relatives. "We had never seen anything quite like it."

He said the object was visible for a few seconds before it disappeared into the clouds at around 7 pm.

"It was first visible as a green revolving light, which turned white before it vanished," he said.

"When we reached home we told the others what we had seen and they said we were imagining things." Mr Adnan said he decided to come forward after reading other reports of UFO sightings over the Sitra Causeway and Bahrain Financial Harbour on Monday.

(The Tree of Life is a well-matured acacia tree that stands alone in the otherwise barren desert and grows where no other vegetation or water can be seen nearby. Its green foliage provides welcome shade and it is a popular picnic spot, but its source of water still remains a mystery, even to this day. It is situated approximately 2 kilometres south of Jebel Dukhan where the Oil Museum and Oil Well

No.1 are located. Legend says that if one touches it, one will live longer.

American Chronicle - Beverly Hills,  
California, USA  
8th August 2006

Military Aircraft Chased UFO Over  
Slupskby

Radar identified an UFO object that had entered Polish airspace. Mr. Stanislaw Z. notified the proper officials and soon an alert was announced. In the following minutes Captain Praszczalek would have direct contact with the UFO.

Many military services maintain that they don't keep track of UFO sightings, but the Polish army keeps records of pilots that encounter UFOs. The following information was obtained from Mr. Marcin Wawrzak, an UFO enthusiast from Slupsk.

The report was related by Mr. Stanislaw Z. who was in charge of the radar operations at Slupsk Military Airport, "On July 6th 1983, I was on command duty as a navigator. We received information that some Unidentified Flying Object appeared over an airport in Darlowo."

A military jet was ordered to close on the object and to report. After several minutes, the pilot replied: "I can see the target. It is steel in colour, rotating around its axe, 'throwing' as a boomerang, without any exploratory marks, without any engines nor markings", stated Stanislaw Z.

Captain Praszczalek's description of the object puzzled those in command of the airport. It was decided to notify the

General Command of Air Forces in Warsaw and let them decide what actions or procedures the pilot should follow. "In 20 minutes the decision came ordering the pilot to fire at the object. When he passed on the command: "Fire!" to the pilot, the pilot reported that, "The object made a sharp turn and disappeared!"

Then suddenly, all the radar screens went crazy, registering thousands of unknown signals. For the next 10 hours military aircraft unsuccessfully searched for the unknown object.

The next day Military Special Service members arrived on the base and began their investigation of the incident. Their final report and any determinations made have never been made public. Stanislaw Z. refused to talk about the investigation.

During the past twenty or more years there have been many similar reports to the 1983 Slupsk UFO encounter.

Singapore Black UFO...

On July 7, 2006, my family was in the living room watching TV at 7 PM, when something in the air caught my eye. At first I thought it was an airplane but it was a black disk shaped object. I figured that it could not be a giant helicopter because there were no "propeller fans" on top and it definitely wasn't an airplane. It also had no blinking lights on it like aircraft. It was quite a distance away so I could not make out much detail and it flew straight towards the right before flying upwards. It then disappeared behind a block of flats. Thanks to Peter Davenport National UFO Reporting Center [www.uforc.com](http://www.uforc.com)

**South Africa Colourful Flashing UFO.**

Vierfontein -- On July 10, 2006, at about 7:18 PM, we saw white, green, blue, and red lights hanging in the air for a long time. They then flew slowly southwest. The flashing colourful lights were visible for more than 40 minutes. They are still visible whilst I type this report. Thanks to Peter Davenport National UFO Reporting Center [www.uforc.com](http://www.uforc.com)

---

Winnipeg, Manitoba -- I was looking out of the south facing window of my apartment overlooking Assiniboine Park at 3:30 AM, Sunday July 23, 2006 when I observed an object slightly bigger than a star moving southwest very fast. In my opinion, it was too low/large to be a satellite and definitely too fast to be a high-flying jet. In addition, noise was audible and the object disappeared while I was following it with my binoculars possibly due to thin cloud cover. I'm fairly certain it wasn't a satellite or a plane. Thanks to Brian Vike Director HBCC <http://www.hbccufo.org/>

---

**Canada Fighters Track Cigar UFO..**

Sackville, NOVA SCOTIA -- On July 12, 2006, at about midnight, I was outside on a chair smoking a cigarette with my girlfriend when we heard what sounded like a bi-plane, or Cessna, flying in a circle right above us for four minutes. Then, the sound disappeared. Several minutes later, we heard a low rumble coming closer. I knew it was fighter jets about 20,000 to 40,000 feet up flying on either side of something that I have never seen before

in my life. It had a large orange circular light in front, a very long oval shaped orange light in the middle, and another circular light in the back. This object had no blinking lights at all. I watched it until it went beyond sight behind the trees. Thanks to Peter Davenport National UFO Reporting Center [www.uforc.com](http://www.uforc.com)

---

**Colorado Two Lights Flying in Formation...**

Avon -- While looking at the stars on July 13, 2006, at 11 PM, we saw two steady white lights flying in formation, travelling south over the Colorado Rockies. They were travelling rather fast and at the exact same speed the entire time we saw them, one slightly below and behind the other. The lights went from similar to that of a star to as bright as a spotlight then gradually dimmed until we could no longer see them. Almost as if the light was rotating very slowly. When the light was brightest, it appeared to be vertically oblong in shape. We waited to see if they appeared farther down the horizon, but they did not. At the same time, airplanes were visible in other areas of the sky. Thanks to Peter Davenport National UFO Reporting Center [www.uforc.com](http://www.uforc.com)

### Norfolk UFO Society...

Are proud to present "An Evening with Paola Harris". The talk will begin at 6.00 pm on Saturday, 30th September, 2006, at the Bergh Apton Village Hall, Norwich, Norfolk. (Bergh Apton is a village just off the main A146 road from Norwich to Lowestoft). Preceding the talk, there will be a Mind, Body and Spirit Fair from 11.00 am to 5.00 pm.

Tickets for the talk will be £7.00 (seven pounds) each and admission for the fair only will be £2.00 (two pounds). Pre booked tickets are advised as the hall can only seat just over 100.

There will be light refreshments (tea, coffee, cakes, filled rolls, cold drinks, etc.,) served all day.

Paola:

Paola Harris is an internationally known speaker on the subject of UFOlogy. She has recently finished a world tour including attending as a speaker at the Ex Politics conference in Hawaii. Currently working for the top Italian UFO magazine - Area 51. Living between her native Rome and Colorado, USA (her English is impeccable), she is a well known and highly respected journalist and photographer. Paola worked with the late, great Dr. J. Allen Hynek and her list of acquaintances in the subject of Ufology is long and very impressive. She has worked with and interviewed such people as Zechariah Sitchin, Robert 'Bob' Dean, R Leo Sprinkle, Richard Sigismond, Linda Moulton Howe, Monsignor Corrado Balducci, Dr. Richard Boylen, Dr. Steven Greer, Richard Hoagland, Dr. Richard Sauder, Derrel Sims, Ingo Swann, Russel Targ, Uri Geller, Guy Andronik, Astronauts Clark McClelland, Ed Mitchell and Buzz

Aldrin, Courtney Brown phd, Senator Barry Goldwater, Al Bielek (Philadelphia Experiment), Jason Andrews, Alfred Webre - and, very recently, Ex Minister of Defence for Canada - Paul Hellyer who gave Paola an exclusive interview on the 'Star Wars Project' engineered by George Bush and his American Government.

Amongst her greatest friends and work colleagues were such people as Colonel Philip Corso, (and Paola was instrumental in getting the Roswell Story out to the public), Dr. J. Allen Hynek, Mimi Hynek, Dr. Michael Wolf and Dr. John Mack.

Please visit Paolas' website:

[www.paolaharris.com](http://www.paolaharris.com) and click on the American flag for the English version of the extensive site.

We are privileged to have Paola agree to give a presentation for our society in Norwich, Norfolk.

Anyone who pre pays for tickets but has no transport from the main line station at Norwich, can be collected from the station - at a pre arranged time - for a couple of pounds each.

---

### SPACE FILLER

(Ran out of room in the paranormal section).

Reported crop circle formations in Hampshire...

23.7.06 - Cheesefoot Head. Wheat. 9 fold circular geometry with star & outer ring.

25.7.06 - Arreton, Nr Newchurch (Isle of Wight).

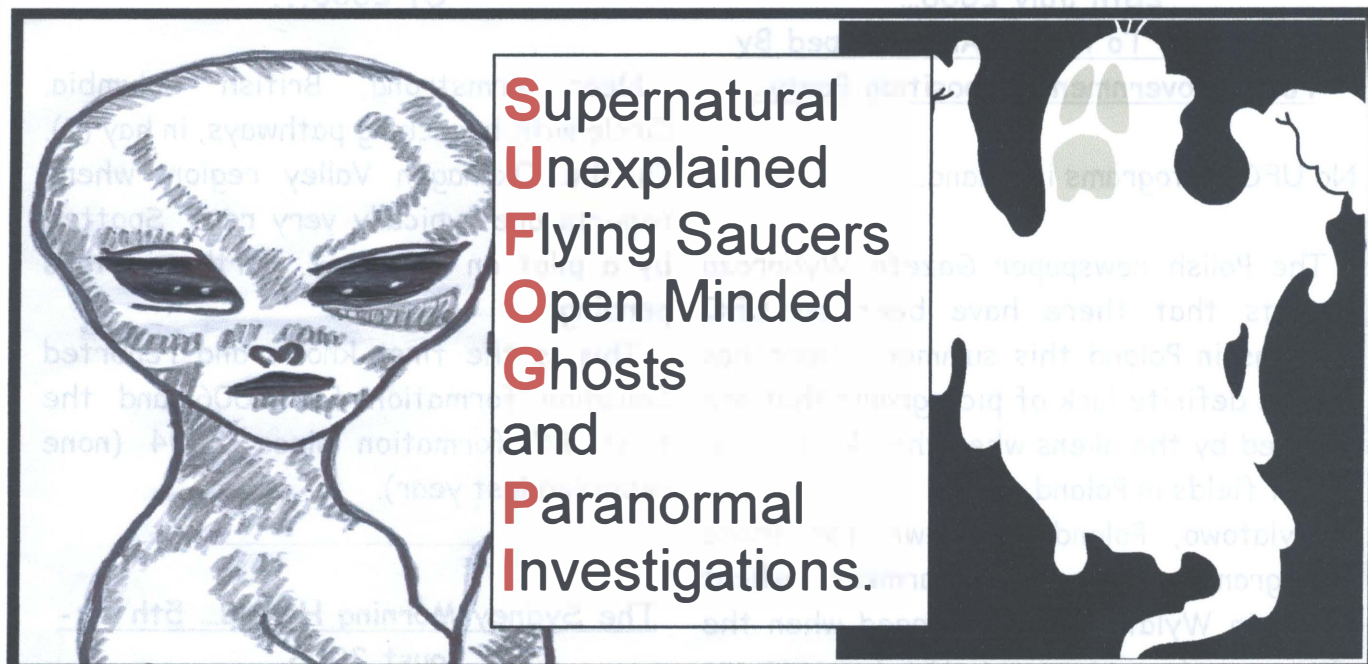

3 circles, one large and one smaller facing East & third circle off centre.

(I saw this one whilst on holiday... but I did not have my camera with me. Steve G)

---

## THE PARANORMAL HAS ARRIVED IN SUFOG...

The Ghost paranormal section of the group is now known as SUFOG-PI (Southampton UFO Group - Paranormal Investigations). This is to be co-ordinated by group secretary Steve Rider. If you are interested in helping Steve with Paranormal Investigations etc, then email him at : [sufogsec@soton1970.fsnet.co.uk](mailto:sufogsec@soton1970.fsnet.co.uk)

### The Journal of Hispanic Ufology July 11, 2006...

#### Argentina: Cattle Mutilation In La Pampa a report from Raul Oscar Chaves, Ciufoslapampa.

In late June 2006 on the edge of Provincial Route No. 7 (km 158) in the jurisdiction of Colonia Ines y Carlota, some 50 km NE of Santa Rosa, La Pampa, 5 bovines were found dead, presenting clear signs of mutilation.

The time of death had been estimated at some 15 days and the carcasses showed signs

of missing udders, ears and tongues; incisions in the genital region were also reported.

The animals were predominantly black Aberdeen Angus and Shorton cattle with an approximate weight of 300 kg. The discovery of elements with these characteristics, albeit sporadically, is proof of the phenomenon's continuity. At the same time, the lack of elements of discernment have kept a formal complaint from being brought to the authorities.

The need to "distance oneself" from these animals arises from the possible impact on the cattle rancher's livelihood, since potential livestock buyers are reluctant to make purchases from estates on which mutilation episodes have occurred.

The Polish Outlook - Warszawa...28th July 2006...UFO Visits To Poland Are Stopped By  
Polish Government Opposition Party...

No UFO Pictograms in Poland...

The Polish newspaper Gazeta Wyborcza reports that there have been no UFO landings in Poland this summer. There has been a definite lack of pictograms that are created by the aliens when they land in the wheat fields in Poland.

Wylatowo, Poland is known for those pictograms. Every year farmers' wheat fields in Wylatowo are damaged when the aliens create pictograms. The farmers are always very angry but the town is UFO heaven and a lot of tourists come to see a UFO.

The newspaper ran a survey to try and find out why the aliens have stopped visiting Poland.

Here on the results of this survey  
It's too hot - 2%

People don't feel like making them many more - 35%

It's the Civic Platforms fault - 63%

Since the Polish government ruling coalition party Law and Justice has been blaming the Civic Platform for any unpopular decisions or moves that the Law and Justice Party makes, it only stands to follow that it is the Civic Platform's fault that the aliens are no longer visiting Poland. And it is Civic Platform's fault that income is down in Wylatowo because tourists are not coming to see the pictograms.

It's the Civic Platforms fault!

First Canadian Crop Circle Formation  
Of 2006...

Near Armstrong, British Columbia. Circle with branching pathways, in hay (?). In the Okanagan Valley region, where reports are typically very rare. Spotted by a pilot on August 2. Further details pending.

This is the first known and reported Canadian formation for 2006 and the first BC formation since 2004 (none reported last year).

The Sydney Morning Herald... 5th August 2006...One Giant Blunder For Mankind: How  
NASA Lost Moon Pictures...

The heart-stopping moments when Neil Armstrong took his first tentative steps onto another world are defining images of the 20th century: grainy, fuzzy, unforgettable.

But just 37 years after Apollo 11, it is feared the magnetic tapes that recorded the first moon walk - beamed to the world via three tracking stations, including Parkes's famous "Dish" - have gone missing at NASA's Goddard Space Centre in Maryland.

A desperate search has begun amid concerns the tapes will disintegrate to dust before they can be found.

It is not widely known that the Apollo 11 television broadcast from the moon was a high-quality transmission, far sharper than the blurry version relayed instantly to the world on that July day in 1969.

Among those battling to unscramble the mystery is John Sarkissian, a CSIRO scientist stationed at Parkes for a

decade. "We are working on the assumption they still exist," Mr Sarkissian told the Herald.

"Your guess is as good as mine as to where they are."

Mr Sarkissian began researching the role of Parkes in Apollo 11's mission in 1997, before the movie *The Dish* was made. However, when he later contacted NASA colleagues to ask about the tapes, they could not be found.

"People may have thought 'we have tapes of the moon walk, we don't need these'," said the scientist who hopes a new, intensive hunt will locate them.

If they can be found, he proposes making digitalised copies to treat the world to a very different view of history.

But the searchers may be running out of time. The only known equipment on which the original analogue tapes can be decoded is at a Goddard centre set to close in October, raising fears that even if they are found before they deteriorate, copying them may be impossible.

"We want the public to see it the way the moon walk was meant to be seen," Mr Sarkissian said.

"There will only ever be one first moon walk."

Originally stored at Goddard, the tapes were moved in 1970 to the US National Archives. No one knows why, but in 1984 about 700 boxes of space flight tapes there were returned to Goddard.

"We have the documents to say they were withdrawn, but no one knows exactly where they went," Mr Sarkissian said.

Many people involved had retired or died.

Also among tapes feared missing are the original recordings of the other five Apollo moon landings. The format used by the

original pictures beamed from the moon was not compatible with commercial technology used by television networks. So the images received at Parkes, and at tracking stations near Canberra and in California, were played on screens mounted in front of conventional television cameras.

"The quality of what you saw on TV at home was substantially degraded" in the process, Mr Sarkissian said, creating the ghostly images of Armstrong and Aldrin that strained the eyes of hundreds of millions of people watching around the world.

Even Polaroid photographs of the screen that showed the original images received by Parkes are significantly sharper than what the public saw. While the technique looks primitive today, Mr Sarkissian said it was the best solution that 1969 technology offered.

Among the few who saw the original high-quality broadcast was David Cooke, a Parkes control room engineer in 1969.

"I can still see the screen," Mr Cook, 74, said. "I was amazed, the quality was fairly good."

---

## **PARANORMAL PIECES...**

**By Ernie Sears...**

Hunting around for material for the SUFOG mag spooky section I suddenly realised that a harvest of stories made the PARANORMAL monthly magazine worth a look. So it was the July 06 of this glossy ninety page production (page numbers stop at 84 but this seems to be a built in hiccup!) that provided me with the story of the USS Arizona, sunk by

---

Japanese in WW2 and still lying at the bottom of the Pearl Harbour entrance, with 900 members of the crew lying with the ship. It was only after a memorial was erected in 1962, paid for by donations and the proceeds of a concert given by Elvis Presley that stories began to circulate from visitors to the superstructure and the museum built ashore. One story has the officer on duty on the morning of the attack wasn't at his post. He died in the attack. Now he apparently haunts the ship, walking at low tide and at night and in the dawn.. Many odd things when visitors take films of the wreck include orbs appearing on the film,

there are foggy spots and every now and then a misty shadow is seen lurking in the background of the photograph.

A security guard has told of seeing an apparition in a Liverpool Park....and so have several others, including a Mrs Baker, who wrote to the man after seeing the form hovering about 200 feet in the sky over Sefton Park on a moonlit night as she walked her dogs. She could distinctly see that it was a woman in what looked like some old fashioned nightgown. She drifted off towards Brompton House and vanished into the night. A few months later a cab driver, Jimmy, described seeing a white thing in the sky, about 600 yards away, was a person in a long white dress. He drew the attention of two girls in the back of his cab to the strange sight who also saw it. The security guard described looking at the moon with his army surplus binoculars, and saw something glide beneath the moon's disc. A ghostly, pale figure of a woman, wearing a long white garment.

I thought at first I was seeing things, when suddenly the local police helicopter

flew over the park with its searchlight on. The beam went straight through the woman. The guard was dazzled by the light and when he looked again the figure had vanished. (From the Psychic News Aug 5<sup>th</sup>).

---

Hello SUFOG,

A friend of mine in America told Peter Cheasley in Canada about the research that I have been doing since 2002 on Orbs, it seems he told someone in your organization about me and they said to contact you. I am in Staines, although the majority of my work has been done in America.

I don't know if Orbs or air dwellers as I call some of them fit into your investigations as they are not solid forms, unlike UFO's. They are interesting little things though, and seem to have a will and character of their own. I looked at the 3 photos you have on your site with orbs on them and your camera had to have been really fast to catch their movement as you did. On a video you can see the movement but not often on a still picture. Those that are moving on a photo are usually called shooters and are mostly moving upwards. The ones that you have captured are moving a bit like a butterfly no specific direction, just willy nilly. I lightened up one of them to see if they had the usual colours in them but all I found was an aura, (see pic) I wondered if there were any more in the background but there weren't. the only other one is the one mentioned sitting on the bench.

Some of the air dwellers may fit into your ghost research as they do look like ghosts sometimes. I took some in Arnhem in Holland a few years ago and they were massive ghostly beings, I am at the moment changing over computers and so can't access most of them right now but will send more pics if you are interested. I have added 2 one taken in 2002 the other in 2003.

Some of the orbs photos are magnificent, many hundreds of them on the same photo. a couple of strange manifestations as well that have not yet been explained even by SETI.

Anyway this was just a brief introduction of myself to you. I go to the Isle of Wight quite often and so may be able to attend one of your meetings in the future.

Take care out there!

Gloria Hazell
